SKILLED CRAFTERS OF METAL ROOFING SYSTEMS

PREMIUM METAL ROOF SYSTEM

EXPOSED FASTENER SERIES

PBRMAX

1 1/4" RIB EXPOSED SEAM

THE CHOICE FOR STRENGTH, DURABILITY AND VERSATILITY

Economical, strong and attractive, PBRMax delivers the bold lines and durability designers look for in a metal panel system. This value added product is the perfect choice for commercial metal building applications. PBRMax features a 1 1/4-inch low-profile with exposed fastener system that provides for thermal movement and element protection. This is the contractor's go-to metal panel system, and to top it all off, installation is a breeze.
